Scores are used as a certain percentage of the final average.</p>
<p>NAEP Assessment NAEP tests a small sample of students at grades 4, 8, and 12 for the main assessments, and at ages 9, 13, or 17 for the long-term trend assessments. These specific three grades and ages represent critical junctures in academic achievement.</p>	<p>January 29 - March 8, 2024 NAEP is designed to be minimally disruptive for students, teachers, and schools. Students spend up to 90 minutes on most NAEP assessments. This includes setting up, taking the assessment (up to 60 minutes), and getting back to instructional activities.</p>	<p>NAEP produces The Nation's Report Card and is considered the gold standard for large-scale assessment. Since a representative sample of students from each state take NAEP, it allows Tennesseans to see how our students are performing compared to peers in other states.</p>	<p>Instead of reporting individual scores, NAEP reports overall results for the nation, the states, and for demographic groups of students.</p>
